**HEALTHIER, LONGER,
BETTER LIVES**

Are you struggling with the financial strain of your diabetes, hypertension or hyperlipidaemia condition

Diabetes, hypertension and hyperlipidaemia – known as the “three high” – are common lifestyle diseases in Hong Kong.

Getting the right protection may not be easy with these conditions, and long-term treatment can strain your finances. However, neglecting your treatment can lead to even more serious consequences – including deadly critical illnesses.

- Diabetics suffer significant health risks:
 - **1 to 2 times** more likely to suffer heart disease¹
 - **2 to 6 times** more likely to suffer stroke¹
 - Account for about **40%** of end-stage chronic renal failure cases²
 - Up to **15%** suffer foot ulcers¹
 - **23 times** more likely to undergo lower limb amputation¹
- Hypertension and hyperlipidaemia are key contributors to conditions like stroke, coronary heart disease and more.
- A confirmed diagnosis of diabetes, hypertension and hyperlipidaemia together would increase the risk of cardiovascular disease **20-fold**³.

Diabetes, hypertension and hyperlipidaemia are difficult to live with, but the right preparation can help you limit the impact they have on your life.

Frequently Asked Questions About "Reasonable and Customary" Charges

Q1. How is the "Reasonable and Customary" charge determined?

The "Reasonable and Customary" charge refers to charges for the reimbursement benefit items including physician's visit fee, surgeon's fee and anaesthetist's fee. The "Reasonable and Customary" charge will be calculated based on the customer's admission room type as shown below:

Item Charge	Based on "Reasonable and Customary" Reference Charge
Physician's Visit Fee	Equal to or less than the admission room charge
Surgeon's Fee	References the "List of Surgery Fees" published on the attending hospital's website
Anaesthetist's Fee	35% of the Surgeon's fee

Q2. How is the "Reasonable and Customary" charge determined if you're admitted to a lower room type than what is covered in the plan?

If you opt to be admitted to a lower room type than what is covered in the plan, we will reimburse eligible expenses subject to the "Reasonable and Customary" charge of your plan level chosen / covered room type. Examples are as follows:

Plan Level Chosen / Covered Room Type	Customer's Admission Room Type	"Reasonable and Customary" Reference Charge
Standard Private Room	Semi-Private Room or Ward Room	Standard Private Room
Semi-Private Room	Ward Room	Semi-Private Room

Q3. How is the "Reasonable and Customary" charge determined if the billed surgeon's fee exceeds the "Reasonable and Customary" charge?

If the billed surgeon's fee exceeds the "Reasonable and Customary" charge, we will obtain hospital records and operation records from the attending hospital to determine the complexity of the surgery or any surgery complication resulting in the high surgeon's fee.

- If the records reveal the reason behind the high surgeon's fee, we will calculate the eligible surgeon's fee / anaesthetist's fee according to the billed amount.
- If the records do not reveal any reason behind the high surgeon's fee, we will adjust the eligible surgeon's fee / anaesthetist's fee according to the "Reasonable and Customary" charge.

Q4. Are there other factors that determine the "Reasonable and Customary" charge?

Other than the factors mentioned above, when we assess the claim, we will also check for a "List of Surgery Fees" on the website of the attending hospital.

- If it is available, we will use the "List of Surgery Fees" on the hospital's website to determine the "Reasonable and Customary" charge.
- If it is not available, we will use the "Reference Fee Table on Charges for Common Surgical Procedures" published within our Company to determine the "Reasonable and Customary" charge.

For more information, please refer to the "Reasonable and Customary" charge example outlined overleaf.
