Illustrative Examples of Offer 2:

Example 1

Premium Prepayment Term is 1 Year

Annual Premium (Basic Plan, US\$ policy) is US\$30,000 with 5-year premium payment term

- Guaranteed Preferential Interest Rate (p.a.) on Prepaid Premium: **5.0%**
- Assuming the annual premium of the basic plan of **Global Power Multi-Currency Plan 3, Bonus Power Vantage** or **FlexiAchiever Savings Plan** is US\$30,000 with the first year premium and 1 year prepaid premium (i.e. US\$60,000) paid upon policy application and the New Policy fulfils all requirements of this Offer.

1st Policy Anniversary $\text{US\$30,000} \times 5.0\%$ US\$1,500	=	Total Preferential Interest US\$1,500 (Approx 5.0% of the first year's annual premium)
--	---	---

= Prepaid Premium (deducting the premium due for basic plan) and accumulated interest (if any) for the corresponding Policy Anniversary.

The above illustration is calculated by the guaranteed preferential interest rate of 5.0% p.a., which will remain the same on or before the 1st Policy Anniversary. Assuming the current prevailing interest rate of the FPDA is 0.75% p.a., the extra interest rate will be 4.25% p.a. The prevailing interest rate is non-guaranteed, if it increases or decreases, the extra interest rate will be adjusted accordingly.

Example 2

Premium Prepayment Term is 4 Years

Annual Premium (Basic Plan, US\$ policy) is US\$30,000 with 5-year premium payment term

- Guaranteed Preferential Interest Rate (p.a.) on Prepaid Premium: **4.3%**
- Assuming the annual premium of the basic plan of **Global Power Multi-Currency Plan 3, Bonus Power Vantage** or **FlexiAchiever Savings Plan** is US\$30,000 with the first year premium and 4 years prepaid premium (i.e. US\$150,000) paid upon policy application and the New Policy fulfils all requirements of this Offer.

1st Policy Anniversary $\text{US\$120,000} \times 4.3\%$ US\$5,160	+	2nd Policy Anniversary $\text{US\$95,160} \times 4.3\%$ US\$4,092	+	3rd Policy Anniversary $\text{US\$69,252} \times 4.3\%$ US\$2,978	+	4th Policy Anniversary $\text{US\$42,230} \times 4.3\%$ US\$1,816	=	Total Preferential Interest US\$14,046 (Approx 46.8% of the first year's annual premium [□])
---	---	--	---	--	---	--	---	---

= Prepaid Premium (deducting the premium due for basic plan) and accumulated interest (if any) for the corresponding Policy Anniversary.

□ Round down to one decimal place.

The above illustration is calculated by the guaranteed preferential interest rate of 4.3% p.a., which will remain the same on or before the 4th Policy Anniversary. Assuming the current prevailing interest rate of the FPDA is 0.75% p.a., the extra interest rate will be 3.55% p.a. The prevailing interest rate is non-guaranteed, if it increases or decreases, the extra interest rate will be adjusted accordingly. The interest amounts in the above illustrative example are rounded to nearest integer.

Illustrative Example of Offer 3:

Annual Premium (Basic Plan, US\$ policy) is US\$100,000 with 5-year premium payment term

1 Premium Refund

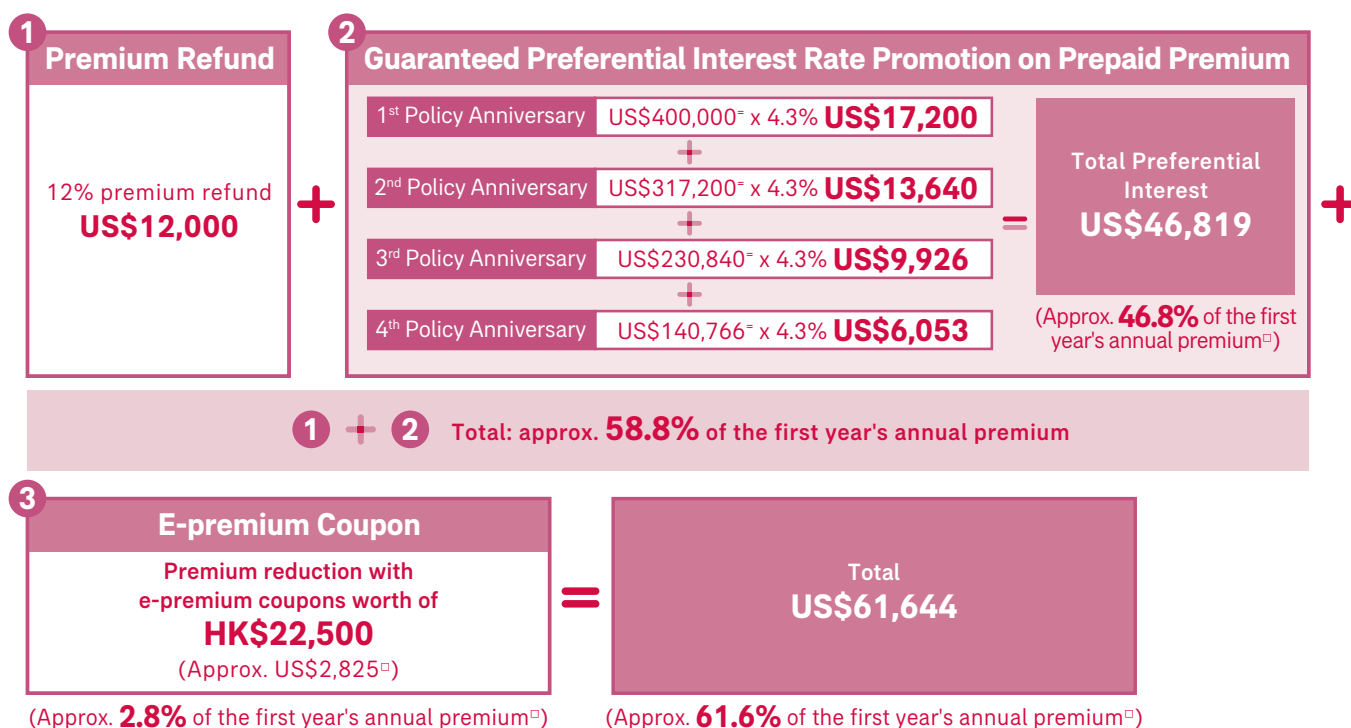

- Assuming same policyholder successfully applies for a Specified Savings Insurance Plan and On Your Side Plan Series or Specified Medical Insurance Products to enjoy **12% premium refund**.

2 Guaranteed Preferential Interest Rate Promotion on Prepaid Premium

- Prepaid prepayment term: 4 years
- Guaranteed Preferential Interest Rate (p.a.) on Prepaid Premium: **4.3%**
- Assuming the annual premium of the basic plan of **Global Power Multi-Currency Plan 3** or **Bonus Power Vantage** is US\$100,000 with the first year premium and 4 years prepaid premium (i.e. US\$500,000) paid upon policy application and the New Policy fulfils all requirements of this Offer.

3 E-premium Coupon

- Assuming policyholder has e-premium coupons which is worth of **HK\$22,500** for premium reduction, i.e. 1 x HK\$10,000 (US\$1,250) and 25 x HK\$500 (US\$63) e-premium coupon.

= Prepaid Premium (deducting the premium due for basic plan) and accumulated interest (if any) for the corresponding Policy Anniversary.
□ Round down to one decimal place.

The above illustration is calculated by the guaranteed preferential interest rate of 4.3% p.a., which will remain the same on or before the 4th Policy Anniversary. Assuming the current prevailing interest rate of the FPDA is 0.75% p.a., the extra interest rate will be 3.55% p.a. The prevailing interest rate is non-guaranteed, if it increases or decreases, the extra interest rate will be adjusted accordingly. The interest amounts in the above illustrative example are rounded to nearest integer.

Note: Depending on the insurance products applied, the prepaid premium period, and the number of e-premium coupons held by the customers and the annual premium of the basic plan applied, the actual premium refund percentage and amount under Offer 1, the actual guaranteed preferential interest rate and the amount of interest earned under Offer 2, and the amount of e-premium coupon discount may be different from the above examples, and thus the total offer may be less than US\$61,644 or 61.6% of the first year's annual premium.

11. **Guaranteed Preferential Interest Rate Promotion on Prepaid Premium**

- a. The Promotional Period is from 1 April 2025 to 30 April 2025, both days inclusive ("Promotional Period").
- b. This Offer is applicable to the basic plan of Bonus Power Vantage, Global Power Multi-Currency Plan 3 and FlexiAchiever Savings Plan with 5-year premium payment term (US\$ policy only); and that plan ("New Policy") must be:
- successfully applied and submitted within the Promotional Period (based on the application date)
 - issued on or before 30 June 2025;
 - with annual premium payment mode selected upon policy application;
 - with premium prepayment option (including premium prepayment term) selected upon policy application;
 - customer must pay the first year premium and the Prepaid Premium in a lump sum upon policy application or prepay premium within 3 months after the policy issuance; and
 - customer must provide valid documentation proofs (if applicable) to the satisfaction of the Company for it to conduct due diligence pursuant to the applicable regulation / compliance requirements, in order to enjoy this Offer.
- c. This Offer is only applicable to the basic plan premium of the New Policy. Apart from the New Policy, the premiums of all other basic plan(s) and/or rider(s) and levy will not be applied for calculating this Offer.
- d. The Prepaid Premium is deposited into Future Premium Deposit Account ("FPDA") to settle the outstanding premium when it is due. **Prepaid Premium** means:

Premium Prepayment Term	Prepaid Premium
1 Year	The total annual premium payable for the 2nd year premium for basic plan, which does not include any levy or rider premium.
4 Years	The total annual premium payable for the 2nd to 5th year premium for basic plan, which does not include any levy or rider premium.

- e. **Customer must select the premium prepayment option (including premium prepayment term) upon policy application. Request to reselect the premium prepayment option and/or switch premium prepayment term after policy issuance will not be accepted.**
- f. The New Policy will be entitled to a guaranteed preferential interest rate if all requirements of this Offer are fulfilled.

Premium Prepayment Term	Guaranteed Preferential Interest Rate (p.a.) on Prepaid Premium
1 Year	5.0%
4 Years	4.3%

- g. The guaranteed preferential interest rate comprises of the prevailing interest rate of the FPDA and the extra interest rate for the corresponding policy year(s). (Taking the guaranteed preferential interest rate of 4.3% p.a. as an example, if the current prevailing interest rate is 0.75% p.a., the extra interest rate will be 3.55% p.a.) The prevailing interest rate of FPDA is non-guaranteed, if it increases or decreases, the extra interest rate will be adjusted accordingly.
- h. For amount of payment greater than the Prepaid Premium in the FPDA, only prevailing interest rate of FPDA will be applied on the excess amount.
- i. **For 1-Year Premium Prepayment Term:**
- If the first year premium and Prepaid Premium are paid in a lump sum and has been deposited into FPDA upon policy application, the guaranteed preferential interest is determined based on the Prepaid Premium amount (deducting the premium due for basic plan) and the guaranteed preferential interest rate, from the policy issue date ("Interest Effective Date") up to the 1st Policy Anniversary ("Preferential Interest"). If the first year premium is paid upon policy application whereas the Prepaid Premium is paid and has been deposited into FPDA within 3 months after the policy issuance, the guaranteed preferential interest is determined based on the Prepaid Premium amount (deducting the premium due for basic plan) and the guaranteed preferential interest rate, from the date we received the full payment of the 2nd year premium ("Interest Effective Date") up to the 1st Policy Anniversary ("Preferential Interest"). The extra interests of the FPDA (i.e. the difference between the guaranteed preferential interest and the prevailing interest for the corresponding Policy Anniversary) will be credited to the FPDA within 2 months after the 1st Policy Anniversary, whereas the prevailing interest of the FPDA per year will be credited to the FPDA on the corresponding Policy Anniversary. The policy should remain in-force from the policy issue date to the time of crediting the relevant extra interests, otherwise it is **not** eligible to enjoy the guaranteed preferential interest rate, and the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only.
 - On or before the 1st Policy Anniversary, the remaining balance of FPDA should be at least equal to the outstanding total premium of basic plan for the remaining years ("Required Remaining Balance"), otherwise it is not eligible to enjoy the guaranteed preferential interest rate, and the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only.
 - In the event of change of policy option (including but not limited to premium payment term, premium payment mode, policy currency, plan conversion, policy surrender, partial surrender or any FPDA amount reduction that leads to insufficiency of Required Remaining Balance) on or before the 1st Policy Anniversary, it is **not** eligible to enjoy the guaranteed preferential interest rate, the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only. Upon policy surrender, any Prepaid Premium (with interest at prevailing interest rate of FPDA) will be refunded.
 - After the 1st Policy Anniversary, any amount left in the FPDA will be accumulated at the prevailing interest rate only, which is non-guaranteed.
- j. **For 4-Year Premium Prepayment Term:**
- If the first year premium and Prepaid Premium are paid in a lump sum and has been deposited into FPDA upon policy application, the guaranteed preferential interest is determined based on the Prepaid Premium amount (deducting the premium due for basic plan) and the guaranteed preferential interest rate, from the policy issue date ("Interest Effective Date") up to the 4th Policy Anniversary ("Preferential Interest"). If the first year premium is paid upon policy application whereas the Prepaid Premium is paid and has been deposited into FPDA within 3 months after the policy issuance, the guaranteed preferential interest is determined based on the Prepaid Premium amount (deducting the premium due for basic plan) and the guaranteed preferential interest rate, from the date we received the full payment of the 2nd to 5th year premium ("Interest Effective Date") up to the 4th Policy Anniversary ("Preferential Interest"). The extra interests of the FPDA (i.e. the difference between the guaranteed preferential interest and the prevailing interest for the corresponding Policy Anniversary) will be credited to the FPDA within 2 months after the 4th Policy Anniversary, whereas the prevailing interest of the FPDA per year will be credited to the FPDA on the corresponding Policy Anniversary. The policy should remain in-force from the policy issue date to the time of crediting the relevant extra interests, otherwise it is not eligible to enjoy the guaranteed preferential interest rate, and the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only.
 - On or before the 4th Policy Anniversary, the remaining balance of FPDA should be at least equal to the outstanding total premium of basic plan for the remaining years ("Required Remaining Balance"), otherwise it is not eligible to enjoy the guaranteed preferential interest rate, and the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only.
 - In the event of change of policy option (including but not limited to premium payment term, premium payment mode, policy currency, plan conversion, policy surrender, partial surrender or any FPDA amount reduction that leads to insufficiency of Required Remaining Balance) on or before the 4th Policy Anniversary, it is **not** eligible to enjoy the guaranteed preferential interest rate, the Prepaid Premium will be accumulated at a prevailing interest rate of FPDA only. Upon policy surrender, any Prepaid Premium (with interest at prevailing interest rate of FPDA) will be refunded.
