重要通知 | Important Notes

- 友邦強積金優選計劃(「**計劃**」)之**強積金保守基金**及**穩定資本組合**在所有情況下均不保證付還本金。The **MPF Conservative Fund** and the **Capital Stable Portfolio** in the AIA MPF - Prime Value Choice (the "**Scheme**"), do not guarantee the repayment of capital under all circumstances.
- 計劃之**保證組合**純粹投資於一項由友邦保險有限公司(「**承保人**」)以保險單形式發行的核准匯集投資基金,而有關保證亦由承保人提供。因此,你在保證組合的投資(如有)將需承受承保人的信貸風險。有關信貸風險、保證特點及保證條件的詳情,請參閱強積金計劃說明書第3節「基金選擇、投資目標及政策」及附錄二。The **Guaranteed Portfolio** in the Scheme invests solely in an approved pooled investment fund in the form of an insurance policy issued by the AIA Company Limited (the "**Insurer**"). The guarantee is also given by the Insurer. Your investments in the **Guaranteed Portfolio**, if any, are therefore subject to the credit risks of the Insurer. Please refer to the section "3. Fund options, investment objectives and policies" and Appendix 2 to the MPF Scheme Brochure for the details of the credit risk, guarantee features and guarantee conditions.
- 計劃之**保證組合**是資本保證基金。因此,你的投資將需承受保證人(友邦保險有限公司)的信貸風險。成員必須於計劃年度終結日持有此項投資,有關保證才會適用。有關信貸風險、保證特點及保證條件的詳情,請參閱強積金計劃說明書第3節「基金選擇、投資目標及政策」及附錄二。The **Guaranteed Portfolio** in the Scheme is a capital guaranteed fund. Your investments are therefore subject to the credit risks of the guarantor, AIA Company Limited. The guarantee only applies when Members hold their investment until the end of a Scheme Year. Please refer to the section "3. Fund options, investment objectives and policies" and Appendix 2 to the MPF Scheme Brochure for the details of the credit risk, guarantee features and guarantee conditions.
- 在作出投資決定前,你必須衡量個人可承受風險的程度及你的財政狀況。你必須確保所選擇的基金能夠恰當配合本身承受風險的能力。在選擇基金或預設投資策略(「預設投資」)時,如你就某一項基金或預設投資是否適合你(包括是否符合你的投資目標)有任何疑問,應徵詢財務及/或專業人士的意見,並因應你的個人狀況而選擇最適合你的基金。You should consider your own risk tolerance level and financial circumstances before making any investment choices. You must ensure you choose the appropriate funds to meet your risk tolerance. When, in your selection of funds or the MPF Default Investment Strategy (the "DIS"), you are in doubt as to whether a certain fund or the DIS is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the fund(s) most suitable for you taking into account your circumstances.
- 在投資於預設投資前,你必須衡量個人可承受風險的程度及你的財政狀況。請注意,核心累積基金及65歲後基金可能並不適合你,而核心累積基金及65歲後基金與你的風險概況可能出現風險錯配(導致投資組合的風險可能高於你傾向承受的風險水平)。如就預設投資是否適合你有任何疑問,應徵詢財務及/或專業人士的意見,並因應你的個人狀況而選擇最適合你的基金。You should consider your own risk tolerance level and financial circumstances before investing in the DIS. You should note that the Core Accumulation Fund and the Age 65 Plus Fund may not be suitable for you, and there may be a risk mismatch between the Core Accumulation Fund and the Age 65 Plus Fund and your risk profile (the resulting portfolio risk may be greater than your risk preference). You should seek financial and/or professional advice if you are in doubt as to whether the DIS is suitable for you and make the investment decision most suitable for you taking into account your circumstances.
- 請注意,預設投資的實施可能會影響你的強積金投資及權益。如你對有關影響有任何疑問,我們建議你諮詢受託人的意見。You should note that the implementation of the DIS may have an impact on your MPF investments and benefits. We recommend that you consult with the Trustee if you have doubts on how you are being affected.
- 如你沒有作出投資選擇,你的供款及/或轉移至本計劃的權益將投資於預設投資(具體描述載於強積金計劃說明書第6節「行政程序」)。If you do not make any investment choices, your contributions made and/or benefits transferred into the Scheme will be invested in the DIS as more particularly described in the section "6. Administrative procedures" of the MPF Scheme Brochure.
- 只有年屆65歲或年屆60歲提早退休的成員,可申請(按受託人根據有關強積金要求不時規定的形式及條款,填交要求的文件或表格)分期提取強積金權益或可扣稅自願性供款權益(視情況而定)。有關詳情,請參閱強積金計劃說明書第6節「行政程序」。Members reaching 65th birthday or early retiring on reaching age 60 may apply (subject to the completion of such document or form (in such form and on such terms) as the Trustee may, subject to the relevant MPF requirements, prescribe from time to time) for payment of the MPF Benefits or the TVC Benefits (as the case may be) in instalments. Please refer to the section "6. Administrative procedures" of the MPF Scheme Brochure for further details.

重要通知｜Important Notes

- 若成員現時投資於保證組合，分期提取權益可能影響成員的保證權利，而成員可能失去其保證，即已提取的金額於被提取後將無權享有任何保證。有關保證組合的保證特點的詳情，請參閱強積金計劃說明書附錄二。保證費將適用於繼續投資於保證組合的成員。If a Member is currently investing in the Guaranteed Portfolio, a payment of benefits in instalments may affect the Member's entitlement to the guarantee and the Member may lose his/her guarantee, that is, the amounts withdrawn will not be entitled to any guarantee after withdrawal. For further details regarding the guarantee features of the Guaranteed Portfolio, please refer to Appendix 2 to the MPF Scheme Brochure. A guarantee charge will apply to Members who remain investing in the Guaranteed Portfolio.

- 退休收益基金概不會就分發派息、分發頻率及派息金額／派息率提供任何保證。派息可從基金的已變現之資本增值、資本及／或總收入中撥付，同時亦可在資本中記入／支付全部或部分費用、收費及開支，以致可用作派息的可分派金額增加。從資本中撥付派息及／或實際上從資本中撥付派息代表提取部分原有投資或歸屬於該原有投資的任何資本增值。分發派息將導致退休收益基金在除息日的每單位資產淨值隨即減少。正派息率或高派息率並不代表正回報或高回報。概不保證分派金額或將會作出任何派息。The Retirement Income Fund does not guarantee distribution of dividend, the frequency of distribution, and the dividend amount/yield. Dividends may be paid out of the realised capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital, resulting in an increase in distributable amount available for dividend distribution. Payment of dividends out of capital and/or effectively out of capital represents a withdrawal of part of the original investment or from any capital gains attributable to that original investment. Distribution of dividends will result in an immediate decrease in the net asset value per unit of the Retirement Income Fund on the ex-dividend date. A positive or high dividend yield does not imply a positive or high return. There is no guarantee of dividend distribution payout or that any dividend distribution will be made.

- 定期及頻繁地分發派息並將有關派息再投資於退休收益基金或將派息投資於強積金保守基金，無可避免會涉及一段派息未有用作再投資／進行投資的投資空檔期，並須重複承受間斷市場風險（現時為每月）。基於派息特點，65歲以下成員在退休收益基金的回報可能會受到負面或正面影響，因為派息被再投資時，其每單位資產淨值可能已上升或下降。因此，65歲以下成員在退休收益基金的回報或會有別於設有類似投資組合但並無派息安排的成分基金，而派息特點對這些成員來說也不一定有利。同樣，65歲或以上成員將派息投資於強積金保守基金亦會面對相同情況。The distribution of dividends for reinvestment of such dividends into the Retirement Income Fund or the distribution of dividends for investment in the MPF Conservative Fund on a regular and frequent basis will inevitably involve an investment time-lag during which dividends are not reinvested/ invested and are subject to out-of-market risk on a recurring basis (currently, on a monthly basis). With the feature of dividend distribution, the return of the Retirement Income Fund for Members aged below 65 may be impacted negatively or positively as its net asset value per unit may have gone up or down at the time when dividends are reinvested. Therefore, the return of the Retirement Income Fund for Members aged below 65 may deviate from that of a constituent fund with similar investment portfolio without such arrangement and may not always be advantageous to these Members. Likewise, the same also applies to Members aged 65 or above in respect of the investment of the dividends into the MPF Conservative Fund.

- 你不應純粹單靠此文件作出任何投資決定。作出任何投資決定前，請參閱強積金計劃說明書以了解詳情（包括風險因素及收費）。You should not base your investment choices on this document alone and should refer to the MPF Scheme Brochure for details (including risk factors and fees and charges) before making any investment decision.

- 投資涉及風險，你可能就你的投資蒙受重大損失且本計劃下可選各項投資選擇並非適合每個人。投資表現及回報可跌可升。Investment involves risks, you may suffer significant loss of your investments and not all investment choices available under the Scheme would be suitable for everyone. Investment performance and returns may go down as well as up.

基金表現概覽備註 | Notes To Fund Performance Review

* 友邦保險有限公司（「承保人」）為本保證組合所投資保險單之承保人。
此項由承保人提供的保證受條款限制，計劃成員必須於有關計劃年度終結日持有此項投資，有關保證才會生效。
若參與僱主選擇參與另一家服務機構之計劃並因而從保證組合提取款項，受僱於終止參與計劃參與僱主的僱員成員的個人賬戶則可能須作出酌情調整（因而可減低成員在個人賬戶的結餘）。酌情調整乃由承保人在成員退出時全權決定，但無論如何比率應不超過個人賬戶結餘的5%。有關本基金及其他基金的資料，計劃參與者須參閱強積金計劃說明書。
承保人每月均會宣布臨時利率（每年不少於0%）。各個人賬戶的利息會每日按臨時利率累計及誌賬。於每個財政年度（截至11月30日止）結束時，承保人會宣布全年利率（「全年利率」）。該全年利率及所宣布的任何臨時利率乃由承保人全權決定，惟承保人保證所宣布的全年利率不少於0%。AIA Company Limited (the "Insurer") is the insurer of the insurance policy underlying the Guaranteed Portfolio. The guarantee provided by the Insurer is subject to conditions and applies only when members hold their investment until the end of a scheme year.
In the event a Participating Employer participates in a scheme provided by another service provider and therefore necessitates any withdrawal(s) from the Guaranteed Portfolio, the Individual Account of an Employee Member of the withdrawing Participating Employer may be subject to a discretionary adjustment (which may reduce the balance of his/her Individual Account). The discretionary adjustment is determined at the sole discretion of the Insurer on withdrawal but will in no event exceed 5% of the individual account balance. Scheme participants are advised to refer to the MPF Scheme Brochure for more information regarding this and other funds.
The Insurer will declare an interim rate (which will not be less than 0% per annum) each month. Interest on individual account will be accrued and credited daily based on the interim rate. At the end of each financial year (ending on 30 November), the Insurer will declare an annual interest rate (the "Annual Rate"). The Annual Rate and any interim rate declared are determined at the sole discretion of the Insurer. The Insurer guarantees that the Annual Rate declared, however, will not be less than 0% per annum.

^ 敬請留意，投資於強積金保守基金的供款有別於將現金存放於銀行或接受存款公司。強積金保守基金在任何情況下均不保證付還本金，及受託人並無責任按賣出價值贖回投資。強積金保守基金並不受香港金融管理局監管。
計劃之強積金保守基金的收費乃透過扣除資產淨值收取，故所列之單位價格/資產淨值/基金表現已反映收費之影響。It should be noted that contributions invested in the MPF Conservative Fund are not the same as placing cash on deposit with a bank or deposit-taking company. The MPF Conservative Fund does not guarantee the repayment of capital under all circumstances and there is no obligation by the Trustee to redeem investments at offer value. The MPF Conservative Fund is not subject to the supervision of the Hong Kong Monetary Authority.
Fees and charges of the MPF Conservative Fund in the Scheme are deducted from the assets of the fund and, therefore, unit price/NAV/fund performance quoted have incorporated the impact of fees and charges.

† 上述風險級別乃由強制性公積金計劃管理局根據《強積金投資基金披露守則》訂明。有關風險級別由友邦（國際）有限公司根據相關強積金基金的最新基金風險標記決定，並只於5月及11月刊更新。上述風險級別並未經證券及期貨事務監察委員會審閱或認可及僅供參考用。The risk class stated above is prescribed by the Mandatory Provident Fund Schemes Authority according to the Code on Disclosure for MPF Investment Funds. Such risk class is determined by AIA International Limited based on the latest fund risk indicator of the relevant MPF Funds and will be updated in May and November issues only. The risk class stated above has not been reviewed or endorsed by the Securities and Futures Commission and is for reference only.

◆ 截至2025年11月30日止財政年度的基金開支比率。成分基金的基金開支比率只會於基金表現概覽匯報日與成分基金的成立日期相隔達兩年後提供。Fund Expense Ratio ("FER") for financial year ended 30 November 2025. FER for the constituent fund will only be shown after the period between the reporting date of the fund performance review and the launch date of the constituent fund reaches 2 years.

Δ 基金風險標記是根據基金過往三年按月回報率計算的年度標準差。資料由友邦保險（國際）有限公司提供。The Fund Risk Indicator is an annualised standard deviation based on the monthly rates of return of the fund over the past three years. This information is provided by AIA International Limited.

□ 表現數據乃以資產淨值對資產淨值計算，並已反映所有收費之影響。The performance data is calculated on a NAV-to-NAV basis and net of all charges.

基金表現概覽備註 | Notes To Fund Performance Review

▲ 平均成本法回報的計算是將指定期內的最終資產淨值與總投資金額比較得出。方法是在指定期內每月最後一個交易日定額投資於同一基金，以當時基金價格（每單位資產淨值）購入相應基金單位，總投資金額則指在該期間內每月供款的總額；而最終資產淨值則為在該期間內所購得的基金單位總數乘以該期間最後一個交易日的基金價格（每單位資產淨值）而得出。此數據僅作舉例用途。Dollar Cost Averaging Return is calculated by comparing the total contributed amount over a specified period with the final NAV (net asset value). A constant amount is used to purchase fund units at the prevailing fund price (NAV per unit) on the last trading day of every month over the specified period. The total contributed amount is the sum of all such monthly contributions. The final NAV is determined by multiplying the total units cumulated over the specified period with the fund price (NAV per unit) on the last trading day of such period. The figures are for illustrative purposes only.

成分基金之十大投資項目乃由友邦保險（國際）有限公司根據基礎基金之投資經理提供個別基礎基金之十五大投資項目（就5月及11月刊而言）及十大投資項目（就1月、3月、7月及9月刊而言）之資產淨值推算得出，並僅供參考用。受限於可得數據，十大投資項目將只於1月、3月、5月、7 月、9月及11月刊更新。The top ten holdings of a constituent fund are calculated by AIA International Limited based on the top fifteen holdings (for May and November issues) and top ten holdings (for January, March, July and September issues) of each of its underlying fund(s), with reference to the NAV of the relevant holdings provided by the investment managers of the underlying funds, and are for reference only. The Top ten holdings will be updated in January, March, May, July, September and November issues only due to data availability.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-0.37%回報。主要拖累來自全球債券。儘管市場波動加劇，富時強積金全球股票指數在七月份仍然持平收盤。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。地緣政治局勢繼續影響市場情緒及能源價格。美伊停火協議及中東局勢的發展仍存在不確定性，令投資者持續關注潛在的能源供應中斷風險及其對通脹帶來的影響。與此同時，全球貿易活動整體保持韌性，人工智能相關技術、數位基礎設施及清潔能源產品需求強勁，為貿易增長提供支持，並在一定程度上抵消了地緣政治因素對市場造成的壓力。富時強積金世界政府債券指數(100%港元對沖)在七月下跌1.1%。儘管聯邦儲備局、歐洲央行和日本銀行在七月份的各自政策會議上維持利率不變，但隨著債券收益率上升，債券市場承受壓力。

The fund recorded -0.37% return in July. The main detractors were global bonds. The FTSE MPF All World Index ended the month of July flat despite heightened market volatility. Strong corporate earnings and continued Artificial Intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the Technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience. Geopolitical developments continued to influence market sentiment and energy prices. Ongoing uncertainty surrounding the ceasefire agreement and the broader Middle East situation kept investors' attention on potential supply disruptions and inflation risks. Nonetheless, global trade remained resilient, supported by strong demand for Artificial Intelligence-related technologies, digital infrastructure and clean energy products, helping offset some of the geopolitical headwinds facing markets. The FTSE MPF World Government Bond Index (100% HKD Hedged) was down by 1.1% in July. Although the Federal Reserve, the European Central Bank and the Bank of Japan kept the policy interest rates unchanged at their respectively policy meetings in July, bond markets came under pressure as yields moved higher.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-0.91%回報。主要拖累來自全球債券。富時強積金世界政府債券指數（100%港元對沖）在七月下跌1.1%。儘管聯邦儲備局、歐洲央行和日本銀行在七月的各自政策會議上維持利率不變，但隨着債券收益率上升，債券市場承受壓力。雖然經濟增長有所放緩，但仍不足以緩解市場對通脹居高不下的擔憂，促使投資者重新評估貨幣政策前景。美國長期國債收益率於月內走高，反映市場預期各國央行在看到更明確的通脹回落跡象前，仍將維持謹慎政策取向。儘管市場波動加劇，富時強積金全球股票指數在七月份仍然持平收盤。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。

The fund recorded -0.91% return in July. The main detractors were global bonds. The FTSE MPF World Government Bond Index (100% HKD Hedged) was down by 1.1% in July. Although the Federal Reserve, the European Central Bank and the Bank of Japan kept the policy interest rates unchanged at their respectively policy meetings in July, bond markets came under pressure as yields moved higher. Moderating economic growth was not sufficient to outweigh concerns around sticky inflation, prompting investors to reassess the outlook for monetary policy. The FTSE MPF All World Index ended the month of July flat despite heightened market volatility. Strong corporate earnings and continued artificial intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience.

本基金於7月份錄得0.09%回報。主要貢獻來自能源產業。道瓊工業平均指數於七月上漲了0.3%，而以科技股為主的納斯達克綜合指數則下跌了3.2%。這反映了市場風險包括中東的地緣政治緊張局勢以及科技公司的獲利回吐壓力。投資者開始將注意力從科技行業轉向其他公司。美國聯邦儲備局於七月維持利率不變，同時在通脹壓力仍然存在及勞動力市場保持穩健的背景下，繼續維持審慎立場。高頻經濟數據表現參差。供應管理協會編制的六月份採購經理指數低於上個月的水平，但七月份密西根大學的消費者信心指數則按月反彈。

The fund recorded 0.09% return in July. The main contributor was the Energy sector. In July, the Dow Jones Industrial Average gained 0.3%, outperforming the tech-heavy Nasdaq Composite Index which lost 3.2%. Emerging risks include geopolitical tensions in the Middle East and profit-taking pressures on technology companies. Investors started to shift their focus to companies beyond Technology sector. The Federal Reserve kept interest rates unchanged in July, while policymakers maintained a cautious tone amid persistent inflation pressures and a still-resilient labour market. High frequency economic statistics were mixed. June's Purchasing Managers' Indices complied by the Institute of Supply Management were lower than the previous month's level but July's University of Michigan consumer sentiment index rebounded.

本基金於7月份錄得-0.21%回報。主要拖累來自亞洲（除日本外）股票。富時強積金亞太（除日本外）指數七月以港幣計價下跌2.4%。以科技股主導的韓國綜合股價指數在七月大幅下跌22.2%。韓國股市受到全球人工智能相關公司的股價回調，以及當地投資者去槓桿化的雙重打擊。儘管全球科技股拋售潮導致台灣證券交易所加權指數在七月下跌7.9%，但該島的工業生產和出口在六月錄得連續十七個月的雙位數年度增長。歐洲斯托克指數在七月份小幅下跌0.3%。歐洲央行在七月的政策會議上維持利率不變。央行行長拉加德表示，中東軍事衝突和能源供應緊張仍然是歐洲經濟的主要風險。七月份的綜合採購經理指數初值從六月份的50.0上升到51.9。

The fund recorded -0.21% return in July. The main detractors were Asia ex Japan equities. The FTSE MPF Asia Pacific ex Japan Index was down by 2.4% in July in HKD term. The tech-heavy Korea Composite Stock Price Index lost 22.2% in July. The worldwide correction in Artificial Intelligence-related companies coupled with deleveraging of local investors were a double whammy for Korea stock market. Although worldwide selloff in technology stocks causing the Taiwan Stock Exchange Weighted Index to correct by 7.9% in July, the island's industrial production and export sector registered double-digit yearly growth for seventeen consecutive months in June. The Euro Stoxx Index was mildly down by 0.3% in July. The European Central Bank kept the policy interest rates unchanged at its July policy meeting. The central bank's president, Christine Lagarde, said that the Middle East conflict and energy supply disruption remained the key risks to Europe's economy. The preliminary composite purchasing managers' index for the month of July rose to 51.9 from June's 50.0.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得0.01%回報。主要貢獻來自於美國股票，惟有關收益被亞洲（日本除外）股票的負面表現所抵銷。儘管市場波動加劇，富時強積金全球股票指數在七月份仍然持平收盤。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。地緣政治局勢繼續影響市場情緒及能源價格。美伊停火協議及中東局勢的發展仍存在不確定性，令投資者持續關注潛在的能源供應中斷風險及其對通脹帶來的影響。與此同時，全球貿易活動整體保持韌性，人工智能相關技術、數位基礎設施及清潔能源產品需求強勁，為貿易增長提供支持，並在一定程度上抵消了地緣政治因素對市場造成的壓力。

The fund recorded 0.01% return in July. The main contributors were US equities but the gains were offset by Asia ex Japan equities. The FTSE MPF All World Index ended the month of July flat despite heightened market volatility. Strong corporate earnings and continued Artificial Intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the Technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience. Geopolitical developments continued to influence market sentiment and energy prices. Ongoing uncertainty surrounding the ceasefire agreement and the broader Middle East situation kept investors' attention on potential supply disruptions and inflation risks. Nonetheless, global trade remained resilient, supported by strong demand for Artificial Intelligence-related technologies, digital infrastructure and clean energy products, helping offset some of the geopolitical headwinds facing markets.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-1.18%回報。基金表現主要由於美國國債息率抽升所致。本月，由於美伊局勢的不確定性升溫，令油價上升，推高通脹預期，導致美國國債收益率曲線大致上移。在亞洲美元信貸方面，信用利差稍微擴闊。進入8月，由於地緣政治局勢維持緊張，當前宏觀經濟狀況和美國總統特朗普政策的不確定性，可能會改變市場對美國貨幣政策決策的預期，美國國債收益率因此會持續波動。因此，中長期優質亞洲美元債券仍然是投資重點，以獲得具吸引力的回報，同時亦減少利率波動對價格的負面影響。

The fund recorded -1.18% return in July. Performance was driven mainly by the rise of the US rates. The US Treasury yield curve shifted upwards broadly as uncertainties around the US-Iran conflict heightened, which sent oil prices higher and increased inflation expectations. Asian Dollar credits spreads widened slightly during the month. Going into August, US Treasury bond yields may continue to stay volatile amid ongoing geopolitical tensions, current macroeconomic conditions and uncertainties regarding US President Trump's policies, which influence market expectations on the US monetary decisions. As such, medium to long term high-quality USD bonds continue to be the investment focus for attractive return while minimising the negative price impact from interest rates fluctuations.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-1.20%回報。基金表現主要由於環球債券息率抽升所致。7月環球債券市場錄得下跌，主要原因是美伊緊張局勢重燃推高油價，引發了對通脹的擔憂，並導致政府債券利率普遍上行。各主要地區的經濟數據整體保持韌性。儘管就業數據疲軟，但美國經濟增長和採購經理人數據依然穩健，而歐元區和英國的經濟活動指標則有所改善。在日本，通脹持續趨向目標水平，市場預期政策將進一步正常化。聯儲局、歐洲央行、英倫銀行和日本央行均維持政策利率不變，且釋放出政策訊號整體偏向鷹派。在美國，持續的通脹、高企的油價以及市場對聯儲局政策反應機制的不確定性，導致政府債券利率曲線變陡。10年期美國國債利率從6月的4.47%上升至4.73%。在歐洲，歐洲央行釋放了9月升息的訊號，推動10年期德國國債利率上行35個基點至3.2%，創下2011年以來的最高水平。儘管英倫銀行的聲明較為謹慎，但英國國債利率仍上漲了29個基點。

The fund recorded -1.20% return in July. Performance was driven mainly by the rise of global rates. Global bond markets weakened in July as renewed US-Iran tensions pushed oil prices sharply higher, reigniting inflation concerns and driving a broad rise in sovereign yields. Economic data generally remained resilient across major regions. US growth and PMI readings stayed firm despite weaker employment data, while Eurozone and UK activity indicators improved. In Japan, inflation continued to trend toward target and markets anticipated further policy normalization. The Federal Reserve, European Central Bank, Bank of England, and Bank of Japan all kept policy rates unchanged. Their messaging remained broadly hawkish. In the US, persistent inflation, elevated oil prices, and uncertainty around the Fed's reaction function led to a steepening Treasury curve. The 10-year US Treasury yield ended July at 4.73%, up from 4.47% a month earlier. In Europe, the ECB signalled a possible September rate hike, pushing 10-year Bund yields up 35bps to 3.2%, the highest level since 2011. The UK gilt yields also rose 29bps despite a more cautious tone from the BoE.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得0.17%回報。本月，港元短期利率的走勢有所分化，滬深港通的南向資金流入放緩，加上股票集資活動減少，短端因資金狀況有所放鬆而回落；長端則跟隨美國國債收益率曲線而上移。進入8月，除了基於本地的資金情況外，地緣政治局勢持續緊張，當前宏觀經濟狀況變化和美國政策的不確定性可能會繼續改變市場對美國貨幣政策決策的預期，亦會影響香港短期利率的走勢。

The fund recorded 0.17% return in July. HKD short term rates showed mixed movements, with shorter end moving lower due to loosened funding condition from moderated stock-connect southbound inflows and a slowdown in equity fundraising activities, while longer end moving higher tracking the UST curve. Going into August, in addition to the domestic funding condition, the elevated rate fluctuations driven by ongoing geopolitical tensions, evolving global macroeconomic conditions and uncertainties surrounding US policies may continue to shape market expectations on the US monetary decisions and impact HKD short term rates.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得4.39%回報。主要貢獻來自於香港股票策略。投資者將資金從發達國家股市轉移至落後市場，導致恒生指數在七月份反彈13.1%。金融、地產以及工商分類指數的月度漲幅都超過10%。中國日報於七月報導，商務部正在與美國對口部門密切合作，安排涵蓋價值300億美元的產品互惠關稅減免框架。恒生中國企業指數在七月份上漲了13.9%。受到科技股大幅調整的拖累，滬深300指數在七月下跌了7.9%。不過，因為投資者預期中央政府會加大對經濟的財政支持，與消費相關的公司錄得較佳表現。中國經濟仍低於其潛在經濟增長率。第二季度的年度實質國內生產總值增速從上一季度的5.0%放緩至4.3%。儘管如此，六月份的一些高頻經濟指標，如出口、工業生產和零售銷售，都顯示出改善跡象。本月，香港政府港元債券收益率曲線大致跟隨美國國債收益率曲線而上行，而由於通脹預期上升，長端升幅較短端更大。就港元信貸而言，信用利差有所擴闊。踏入8月，在地緣政治局勢維持緊張、全球宏觀經濟發展以及美國政策不確定性的影響下，市場對美國貨幣政策決策的預期不斷改變，港元債券收益率料將持續波動。同時，本港經濟情況及投資於股票或避險資產的港元資金流向亦會影響港元債券收益率。因此，中長期優質港元債券仍然是投資重點，以獲得具吸引力的回報，同時亦能減少利率波動對價格的負面影響。

The fund recorded 4.39% return in July. The main contributors were the Hong Kong equities. Investors rotated out of the developed markets and redirected their capital to the laggards, causing the Hang Seng Index rebounding by 13.1% in July. The Financials, Property as well as Commerce and Industrial sub-indices registered more than 10% monthly gain. The China Daily reported in July that the Ministry of Commerce was working closely with its counterpart in the US on arrangement of reciprocal tariff reduction framework covering USD 30 billion worth of products on each side. The Hang Seng China Enterprises Index gained 13.9% in July. Dragging down by the sharp correction in Technology sector, the CSI 300 Index went down by 7.9% in July. Nonetheless, consumer sector did well as investors expected the government would ramp up fiscal supports to the economy. Chinese economy is still on a sub-trend path. The yearly real gross domestic product growth decelerated to 4.3% in the second quarter from 5.0 a quarter ago. Nonetheless, high frequency indicators for the month of June, including Exports, Industrial Production and Retail Sales, showed signs of improvement. Hong Kong government HKD bond yield curve shifted upwards in July, tracking broadly the US Treasury yield curve, with long-end rising more than short-end due to increased inflation expectations. In terms of HKD credits, spreads widened during the month. Going into August, HKD bond yields are expected to remain volatile amid ongoing geopolitical tensions, global macroeconomic development and US policies uncertainties, which influence market expectations on the US monetary decisions. Meanwhile, Hong Kong domestic economic conditions and HKD fund flows for equity investments or pursuit of haven assets also influence HKD bond yields. As such, medium to long term high-quality HKD bonds continue to be the investment focus for attractive return while minimising the negative price impact from interest rates fluctuations.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-0.46%回報。主要拖累來自美國和亞洲股票。儘管市場波動加劇，富時強積金全球股票指數在七月份仍然持平收盤。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。地緣政治局勢繼續影響市場情緒及能源價格。美伊停火協議及中東局勢的發展仍存在不確定性，令投資者持續關注潛在的能源供應中斷風險及其對通脹帶來的影響。與此同時，全球貿易活動整體保持韌性，人工智能相關技術、數位基礎設施及清潔能源產品需求強勁，為貿易增長提供支持，並在一定程度上抵消了地緣政治因素對市場造成的壓力。投資者將資金從發達國家股市轉移至落後市場，導致恒生指數在七月份反彈13.1%。金融、地產以及工商分類指數的月度漲幅都超過10%。中國日報於七月報導，商務部正在與美國對口部門密切合作，安排涵蓋價值300億美元的產品互惠關稅減免框架。恒生中國企業指數在七月份上漲了13.9%。富時強積金世界政府債券指數(35%港元對沖)在七月微跌了0.7%。儘管聯邦儲備局、歐洲央行和日本銀行在七月的各自政策會議上維持利率不變，但隨著債券收益率上升，債券市場承受壓力。雖然經濟增長有所放緩，但仍不足以緩解市場對通脹居高不下的擔憂，促使投資者重新評估貨幣政策前景。美國長期國債收益率於月內走高，反映市場預期各國央行在看到更明確的通脹回落跡象前，仍將維持謹慎政策取向。在七月，美國十年期國債息率自2025年初以來首次突破了4.7%。貨幣政策仍是市場關注焦點，通脹水平持續高於各國央行目標。市場普遍預期貨幣政策將維持偏緊程度，並進一步強化了利率可能在較長時間內保持高位的預期。

The fund recorded -0.46% return in July. The main detractors were US and Asian equities. The FTSE MPF All World Index ended the month of July flat despite heightened market volatility. Strong corporate earnings and continued Artificial Intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the Technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience. Geopolitical developments continued to influence market sentiment and energy prices. Ongoing uncertainty surrounding the ceasefire agreement and the broader Middle East situation kept investors' attention on potential supply disruptions and inflation risks. Nonetheless, global trade remained resilient, supported by strong demand for Artificial Intelligence-related Technologies, digital infrastructure and clean energy products, helping offset some of the geopolitical headwinds facing markets. Investors rotated out of the developed markets and redirected their capital to the laggards, causing the Hang Seng Index rebounding by 13.1% in July. The Financials, Property as well as Commerce and Industrial sub-indices registered more than 10% monthly gain. The China Daily reported in July that the Ministry of Commerce was working closely with its counterpart in the US on arrangement of reciprocal tariff reduction framework covering USD 30 billion worth of products on each side. The Hang Seng China Enterprises Index gained 13.9% in July. The FTSE MPF World Government Bond Index (35% HKD Hedged) was mildly down by 0.7% in July. Although the Federal Reserve, the European Central Bank and the Bank of Japan kept the policy interest rates unchanged at their respectively policy meetings in July, bond markets came under pressure as yields moved higher. Moderating economic growth was not sufficient to outweigh concerns around sticky inflation, prompting investors to reassess the outlook for monetary policy. In July, the 10-year US Treasury yield rose above 4.7% for the first time since early 2025. Monetary policy remained a key market focus as inflation stayed above major central banks' targets. Markets continued to anticipate a restrictive policy stance, reinforcing expectations that interest rates could remain elevated for longer.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-2.99%回報。主要貢獻來自於香港股票策略。投資者將資金從發達國家股市轉移至落後市場，導致恒生指數在七月份反彈13.1%。金融、地產以及工商分類指數的月度漲幅都超過10%。中國日報於七月報導，商務部正在與美國對口部門密切合作，安排涵蓋價值300億美元的產品互惠關稅減免框架。恒生中國企業指數在七月份上漲了13.9%。受到科技股大幅調整的拖累，滬深300指數在七月下跌了7.9%。不過，因為投資者預期中央政府會加大對經濟的財政支持，與消費相關的公司錄得較佳表現。中國經濟仍低於其潛在經濟增長率。第二季度的年度實質國內生產總值增速從上一季度的5.0%放緩至4.3%。儘管如此，六月份的一些高頻經濟指標，如出口、工業生產和零售銷售，都顯示出改善跡象。儘管全球科技股拋售潮導致台灣證券交易所加權指數在七月下跌7.9%，但該島的工業生產和出口在六月錄得連續十七個月的雙位數年度增長。以科技股主導的韓國綜合股價指數在七月大幅下跌22.2%。韓國股市受到全球人工智能相關公司的股價回調，以及當地投資者去槓桿化的雙重打擊。日本東證指數在七月微幅上升0.2%。然而，由於半導體和人工智能相關公司的股價調整，導致科技行業佔比超過三分之一的日經225指數大跌8.1%。

The fund recorded -2.99% return in July. The main contributors were the Hong Kong equities. Investors rotated out of the developed markets and redirected their capital to the laggards, causing the Hang Seng Index rebounding by 13.1% in July. The Financials, Property as well as commerce and Industrial sub-indices registered more than 10% monthly gain. The China Daily reported in July that the Ministry of Commerce was working closely with its counterpart in the US on arrangement of reciprocal tariff reduction framework covering USD 30 billion worth of products on each side. The Hang Seng China Enterprises Index gained 13.9% in July. Dragging down by the sharp correction in Technology sector, the CSI 300 Index went down by 7.9% in July. Meanwhile, Consumer sector did well as investors expected the government would ramp up fiscal supports to the economy. Chinese economy is still on a sub-trend path. The yearly real gross domestic product growth decelerated to 4.3% in the second quarter from 5.0 a quarter ago. Nonetheless, high frequency indicators for the month of June, including Exports, Industrial Production and Retail Sales, showed signs of improvement. Although worldwide selloff in technology stocks causing the Taiwan Stock Exchange Weighted Index to correct by 7.9% in July, the island's Industrial Production and Export sector registered double-digit yearly growth for seventeen consecutive months in June. The tech-heavy Korea Composite Stock Price Index lost 22.2% in July. The worldwide correction in Artificial Intelligence-related companies coupled with deleveraging of local investors were a double whammy for Korea stock market. The Tokyo Stock Price Index ended the month of July with a mild 0.2% gain. However, the Nikkei 225 index plummeted by 8.1% due to the corrections of semiconductor and Artificial Intelligence-related companies because Technology sector represents more than one-third of the index.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得1.08%回報。基金績效方面，商業和專業服務行業的選股以及技術硬體與設備的較低持倉作出了貢獻。而資本貨物的選股和半導體設備的較高持倉則構成拖累。歐洲斯托克指數在七月份小幅下跌0.3%。歐洲央行在七月份的政策會議上維持利率不變。央行行長拉加德表示，中東軍事衝突和能源供應緊張仍然是歐洲經濟的主要風險。七月份的綜合採購經理指數初值從六月份的50.0上升到51.9。中東能源衝擊為通脹帶來了更明顯的上行風險。地緣政治不確定性加劇，對歐元區經濟活動構成壓力。

The fund recorded 1.08% return in July. For the fund performance, positive contributors included stock selection in Commercial & Professional Services and an underweight position in Technology Hardware and Equipment. Detractors included stock selection in Capital Goods and an overweight position in Semiconductors and Semiconductor Equipment. The Euro Stoxx Index was mildly down by 0.3% in July. The European Central Bank kept the policy interest rates unchanged at its July policy meeting. The central bank's president, Christine Lagarde, said that the Middle East conflict and energy supply disruption remained the key risks to Europe's economy. The preliminary composite purchasing managers' index for the month of July rose to 51.9 from June's 50.0. The energy shock from the Middle East introduces a clearer upside risk to inflation. Rising geopolitical uncertainty is weighing on euro area economic activities.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-2.18%回報。主要拖累來自資訊科技產業。道瓊工業平均指數於七月上漲了0.3%，而以科技股為主的納斯達克綜合指數則下跌了3.2%。這反映了市場風險包括中東的地緣政治緊張局勢以及科技公司的獲利回吐壓力。投資者開始將注意力從科技行業轉向其他公司。美國聯邦儲備局於七月維持利率不變，同時在通脹壓力仍然存在及勞動力市場保持穩健的背景下，繼續維持審慎立場。高頻經濟數據表現參差。供應管理協會編制的六月份採購經理指數低於上個月的水平，但七月份密西根大學的消費者信心指數則按月反彈。美國股票市場前景維持審慎樂觀，受到經濟增長具韌性及企業盈利穩健的支持，儘管宏觀不確定性仍然存在。2026年第二季的財報季表現格外強勁，標普500指數成分股的獲利超預期幅度接近29%，創下歷史新高。市場增長持續主要由大盤科技股及人工智慧（AI）相關的資本支出所驅動，同時能源和製造業也呈現強勁復甦態勢。

The fund recorded -2.18% return in July. The main detractor was the Information Technology sector. In July, the Dow Jones Industrial Average gained 0.3%, outperforming the tech-heavy Nasdaq Composite Index which lost 3.2%. Emerging risks include geopolitical tensions in the Middle East and profit-taking pressures on technology companies. Investors started to shift their focus to companies beyond Technology sector. The Federal Reserve kept interest rates unchanged in July, while policymakers maintained a cautious tone amid persistent inflation pressures and a still-resilient labour market. High frequency economic statistics were mixed. June's purchasing managers' indices complied by the Institute of Supply Management were lower than the previous month's level but July's University of Michigan consumer sentiment index rebounded. The US equity market outlook remains cautiously constructive, supported by resilient economic growth and solid corporate earnings, despite lingering macro uncertainties. Q2 2026 earnings season has delivered exceptionally robust results, tracking record-high earnings surprises near 29% for the S&P 500. Growth continues to be heavily driven by large-cap Technology and AI-related capital expenditures, alongside strong rebounds in energy and manufacturing sectors.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得-0.18%回報。就國家而言，德國是帶動投資組合表現的主要因素，相反美國則拖累組合表現。就行業而言，金融帶動相對回報，而資訊科技則拖累表現。近期數周顯示，儘管整體市場波動偏低，隨着投資者審視力度加強，個股波動性正逐步上升。市場對人工智能相關投資、盈利能力、估值及供應鏈風險的關注持續，亦進一步突顯精選投資及結構性韌性的重要性。在此背景下，投資團隊策略上維持較低美國配置，因為集中度及估值風險仍然存在。

The fund recorded -0.18% return in July. At the country level, Germany was the key contributor, while the US detracted. At the sector level, Financials added to the relative return, while Information Technology detracted. Recent weeks have shown that despite low market volatility, single-stock volatility is rising as investors increase scrutiny. Concerns over AI-related investments, profitability, valuations and supply chain risks remain in focus, reinforcing the importance of selectivity and structural resilience. Against this backdrop, investment team are strategically positioned away from the US, as concentration and valuation risks persist.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得0.13%回報。本月，香港政府港元債券收益率曲線大致跟隨美國國債收益率曲線而上行，而由於通脹預期上升，長端升幅較短端更大。就港元信貸而言，信用利差有所擴闊。踏入8月，在地緣政治局勢維持緊張、全球宏觀經濟發展以及美國政策不確定性的影響下，市場對美國貨幣政策決策的預期不斷改變，港元債券收益率料將持續波動。同時，本港經濟情況及投資於股票或避險資產的港元資金流向亦會影響港元債券收益率。因此，中長期優質港元債券仍然是投資重點，以獲得具吸引力的回報，同時亦能減少利率波動對價格的負面影響。

The fund recorded 0.13% return in July. Hong Kong government HKD bond yield curve shifted upwards in July, tracking broadly the US Treasury yield curve, with long-end rising more than short-end due to increased inflation expectations. In terms of HKD credits, spreads widened during the month. Going into August, HKD bond yields are expected to remain volatile amid ongoing geopolitical tensions, global macroeconomic development and US policies uncertainties, which influence market expectations on the US monetary decisions. Meanwhile, Hong Kong domestic economic conditions and HKD fund flows for equity investments or pursuit of haven assets also influence HKD bond yields. As such, medium to long term high-quality HKD bonds continue to be the investment focus for attractive return while minimising the negative price impact from interest rates fluctuations.

基金經理報告 | FUND MANAGER'S REPORT

本基金於7月份錄得1.06%回報。主要貢獻來自香港股票，但部分收益被全球債券抵銷。儘管市場波動加劇，富時強積金全球股票指數在七月份仍然持平收盤。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。地緣政治局勢繼續影響市場情緒及能源價格。美伊停火協議及中東局勢的發展仍存在不確定性，令投資者持續關注潛在的能源供應中斷風險及其對通脹帶來的影響。與此同時，全球貿易活動整體保持韌性，人工智能相關技術、數位基礎設施及清潔能源產品需求強勁，為貿易增長提供支持，並在一定程度上抵消了地緣政治因素對市場造成的壓力。投資者將資金從發達國家股市轉移至落後市場，導致恒生指數在七月份反彈13.1%。金融、地產以及工商分類指數的月度漲幅都超過10%。中國日報於七月報導，商務部正在與美國對口部門密切合作，安排涵蓋價值300億美元的產品互惠關稅減免框架。恒生中國企業指數在七月份上漲了13.9%。富時強積金世界政府債券指數(35%港元對沖)在七月微跌了0.7%。儘管聯邦儲備局、歐洲央行和日本銀行在七月的各自政策會議上維持利率不變，但隨著債券收益率上升，債券市場承受壓力。雖然經濟增長有所放緩，但仍不足以緩解市場對通脹居高不下的擔憂，促使投資者重新評估貨幣政策前景。美國長期國債收益率於月內走高，反映市場預期各國央行在看到更明確的通脹回落跡象前，仍將維持謹慎政策取向。在七月，美國十年期國債息率自2025年初以來首次突破了4.7%。貨幣政策仍是市場關注焦點，通脹水平持續高於各國央行目標。市場普遍預期貨幣政策將維持偏緊程度，並進一步強化了利率可能在較長時間內保持高位的預期。

The fund recorded 1.06% return in July. The main contributors were Hong Kong equities but the gains were partially offset by global bonds. The FTSE MPF All World Index ended the month of July flat despite heightened market volatility. Strong corporate earnings and continued Artificial Intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the Technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience. Geopolitical developments continued to influence market sentiment and energy prices. Ongoing uncertainty surrounding the ceasefire agreement and the broader Middle East situation kept investors' attention on potential supply disruptions and inflation risks. Nonetheless, global trade remained resilient, supported by strong demand for Artificial Intelligence-related technologies, digital infrastructure and clean energy products, helping offset some of the geopolitical headwinds facing markets. Investors rotated out of the developed markets and redirected their capital to the laggards, causing the Hang Seng Index rebounding by 13.1% in July. The Financials, Property as well as Commerce and Industrial sub-indices registered more than 10% monthly gain. The China Daily reported in July that the Ministry of Commerce was working closely with its counterpart in the US on arrangement of reciprocal tariff reduction framework covering USD 30 billion worth of products on each side. The Hang Seng China Enterprises Index gained 13.9% in July. The FTSE MPF World Government Bond Index (35% HKD Hedged) was mildly down by 0.7% in July. Although the Federal Reserve, the European Central Bank and the Bank of Japan kept the policy interest rates unchanged at their respectively policy meetings in July, bond markets came under pressure as yields moved higher. Moderating economic growth was not sufficient to outweigh concerns around sticky inflation, prompting investors to reassess the outlook for monetary policy. In July, the 10-year US Treasury yield rose above 4.7% for the first time since early 2025. Monetary policy remained a key market focus as inflation stayed above major central banks' targets. Markets continued to anticipate a restrictive policy stance, reinforcing expectations that interest rates could remain elevated for longer.

基金經理報告 | FUND MANAGER'S REPORT

主要貢獻來自全球股票。富時全球高股息殖利率指數7月上漲3.5%。強勁的企業盈利表現以及人工智能相關投資持續增長，繼續為風險資產提供支持。不過，市場領導力量已逐步從科技板塊擴展至更多行業。投資者愈發關注能夠將業務增長轉化為實際盈利的企業，而金融與工業等板塊則受惠於市場輪動趨勢，共同推動整體股市維持韌性。地緣政治局勢繼續影響市場情緒及能源價格。美伊停火協議及中東局勢的發展仍存在不確定性，令投資者持續關注潛在的能源供應中斷風險及其對通脹帶來的影響。與此同時，全球貿易活動整體保持韌性，人工智能相關技術、數位基礎設施及清潔能源產品需求強勁，為貿易增長提供支持，並在一定程度上抵消了地緣政治因素對市場造成的壓力。富時強積金世界政府債券指數（100%港元對沖）在七月下跌1.1%。儘管聯邦儲備局、歐洲央行和日本銀行在七月的各自政策會議上維持利率不變，但隨著債券收益率上升，債券市場承受壓力。

The main contributors were global equities. The FTSE All World High Dividend Yield Index rose 3.5% in July. Strong corporate earnings and continued Artificial Intelligence-related investment remained supportive for risk assets, although market leadership broadened beyond the Technology sector. Investors increasingly focused on companies demonstrating tangible earnings delivery, while sectors such as Financials and Industrials benefited from the ongoing market rotation, helping support overall market resilience. Geopolitical developments continued to influence market sentiment and energy prices. Ongoing uncertainty surrounding the ceasefire agreement and the broader Middle East situation kept investors' attention on potential supply disruptions and inflation risks. Nonetheless, global trade remained resilient, supported by strong demand for Artificial Intelligence-related technologies, digital infrastructure and clean energy products, helping offset some of the geopolitical headwinds facing markets. The FTSE MPF World Government Bond Index (100% HKD Hedged) was down by 1.1% in July. Although the Federal Reserve, the European Central Bank and the Bank of Japan kept the policy interest rates unchanged at their respectively policy meetings in July, bond markets came under pressure as yields moved higher.
