Important Notes

“**MPF fund**”, for the purposes of this document, means Constituent Fund as defined in the Glossary of the MPF Scheme Brochure of AIA MPF - Prime Value Choice (the “**Scheme**”).

- The **MPF Conservative Fund** and the **Capital Stable Portfolio** in the Scheme do not guarantee the repayment of capital under all circumstances.
- The **Guaranteed Portfolio** in the Scheme invests solely in an approved pooled investment fund in the form of an insurance policy issued by the AIA Company Limited (the “**Insurer**”). The guarantee is also given by the Insurer. Your investments in the **Guaranteed Portfolio**, if any, are therefore subject to the credit risks of the Insurer. Please refer to the section "3. Fund options, investment objectives and policies" and Appendix 2 to the MPF Scheme Brochure for the details of the credit risk, guarantee features and guarantee conditions.
- The **Guaranteed Portfolio** in the Scheme is a capital guaranteed fund. Your investments are therefore subject to the credit risks of the guarantor, AIA Company Limited. The guarantee only applies when Members hold their investment until the end of a Scheme Year. Please refer to the section "3. Fund options, investment objectives and policies" and Appendix 2 to the MPF Scheme Brochure for the details of the credit risk, guarantee features and guarantee conditions.
- You should consider your own risk tolerance level and financial circumstances before making any investment choices. You must ensure you choose the appropriate funds to meet your risk tolerance. When, in your selection of funds or the MPF Default Investment Strategy (the “**DIS**”), you are in doubt as to whether a certain fund or the DIS is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the fund(s) most suitable for you taking into account your circumstances.
- You should consider your own risk tolerance level and financial circumstances before investing in the DIS. You should note that the Core Accumulation Fund and the Age 65 Plus Fund may not be suitable for you, and there may be a risk mismatch between the Core Accumulation Fund and the Age 65 Plus Fund and your risk profile (the resulting portfolio risk may be greater than your risk preference). You should seek financial and/or professional advice if you are in doubt as to whether the DIS is suitable for you and make the investment decision most suitable for you taking into account your circumstances.
- You should note that the implementation of the DIS may have an impact on your MPF investments and benefits. We recommend that you consult with the Trustee if you have doubts on how you are being affected.
- If you do not make any investment choices, your contributions made and/or benefits transferred into the Scheme will be invested in the DIS as more particularly described in the section "6. Administrative procedures" of the MPF Scheme Brochure.

AIA MPF TAX DEDUCTIBLE VOLUNTARY CONTRIBUTION PROGRAMME

- Members reaching 65th birthday or early retiring on reaching age 60 may apply (subject to the completion of such document or form (in such form and on such terms) as the Trustee may, subject to the relevant MPF requirements, prescribe from time to time) for payment of the MPF Benefits or TVC Benefits (as the case may be) in instalments. Please refer to the section "6. Administrative procedures" of the MPF Scheme Brochure for further details.
- If a Member is currently investing in the Guaranteed Portfolio, a payment of benefits in instalments may affect the Member's entitlement to the guarantee and the Member may lose his/her guarantee, that is, the amounts withdrawn will not be entitled to any guarantee after withdrawal. For further details regarding the guarantee features of the Guaranteed Portfolio, please refer to Appendix 2 to the MPF Scheme Brochure. A guarantee charge will apply to Members who remain investing in the Guaranteed Portfolio.
- You should not base your investment choices on this document alone and should refer to the MPF Scheme Brochure for details (including risk factors and fees and charges) before making any investment decision.
- Investment involves risks, you may suffer significant loss of your investments and not all investment choices available under the Scheme would be suitable for everyone. Investment performance and returns may go down as well as up.

Issued by AIA Company (Trustee) Limited

After years of dedication to your work, it's time to consider you and your family's retirement needs

MPF mandatory contributions alone may not be enough for a comfortable retirement. Why not consider joining the new AIA MPF Tax Deductible Voluntary Contribution Programme (the "Programme"), so you can better prepare for your retirement while enjoying tax deduction of up to HK\$60,000¹ each year?

Through AIA, you can start and manage your Tax Deductible Voluntary Contribution ("TVC") account easily with comprehensive investment choices, flexibility in fund switching, smart tools and more, bringing you closer to your retirement goals.

Your new MPF tax benefit

As a taxpaying employee, preparing for your retirement reserve through TVC may be a smart choice for you. Under this programme, the voluntary contributions made into your TVC account during each year of assessment would be eligible for tax deduction in that year of assessment. A maximum of HK\$60,000¹ per annum can be deducted from your taxable income.

Tax savings = TVC amount x Applicable tax rate

Illustrative examples for annual tax savings with TVC for a single person

(The figures are hypothetical and for illustrative purposes only.)

The examples² below illustrate the tax savings a single person could enjoy by making either HK\$30,000 or HK\$60,000 voluntary contributions to his/her TVC account.

			Annual Maximum Total Tax Deductions: HK\$60,000 ¹		
	Net Taxable Income ³ before Making TVC (HK\$)	Tax Payable before Making TVC (HK\$)	Tax Deductible Voluntary Contribution (HK\$)	Tax Payable after Tax Deduction for TVC (HK\$)	Tax Savings with TVC (HK\$)
John	330,000	38,100	30,000	33,000	5,100
			60,000	27,900	10,200
Ann	250,000	24,500	30,000	19,400	5,100
			60,000	14,600	9,900
Susan	200,000	16,000	30,000	11,800	4,200
			60,000	8,000	8,000

Remarks:

¹ HK\$60,000 is the maximum total tax deductions for MPF Tax Deductible Voluntary Contributions and qualifying annuity premiums for the year of assessment 2025/2026. Please visit ird.gov.hk for details.

² The examples are based on the assumption that each single person is taxed at progressive rates on his or her annual net taxable income; and the tax payable is calculated by using the Simple Tax Calculator developed by the IRD. Please visit ird.gov.hk for details.

AIA MPF TAX DEDUCTIBLE VOLUNTARY CONTRIBUTION PROGRAMME

John earns an annual net taxable income³ of HK\$330,000, as illustrated in the table on page 3. According to the tax computation rules of the Inland Revenue Department (IRD), he would be taxed HK\$38,100 before claiming a tax deduction for TVC.

If John contributes a total of HK\$30,000 to his TVC account over the course of a year, an equivalent amount (i.e. HK\$30,000) would be deducted from taxation that year. He would need to pay HK\$33,000 in taxes and save up to HK\$5,100 (i.e. HK\$30,000 x 17%).

If he were to make an even higher contribution of HK\$60,000, he would enjoy a tax deduction of HK\$60,000, which is the maximum tax-deductible limit. After this tax deduction for TVC, he would need to pay HK\$27,900 in taxes as saving up to HK\$10,200.

Similarly, if Ann and Susan were to contribute HK\$60,000 each to their respective TVC accounts, they would enjoy a tax deduction of HK\$60,000 each, which is the maximum tax-deductible limit. After this tax deduction for TVC, they would only need to pay HK\$14,600 and HK\$8,000 in taxes respectively, saving up to HK\$9,900 and HK\$8,000.

As tax saving amounts can vary according to different individuals' situation, taxable income and the applicable tax rate, please refer to the relevant Inland Revenue Ordinance rules and regulation for tax deductions for MPF Tax Deductible Voluntary Contributions and annuity premiums. The maximum tax deduction of HK\$60,000 is an aggregate limit for both MPF Tax Deductible Voluntary Contributions and qualifying annuity premiums.

**Remark:**

³ Net taxable income (i.e. net chargeable income) is calculated by total income minus allowances and deductions (e.g. basic/dependent parent(s) allowance, deductions for MPF mandatory contributions).

*AIA Company Limited (the "Insurer") is the insurer of the insurance policy underlying the Guaranteed Portfolio.

The Insurer will declare an interim rate (which will not be less than 0% p.a.) each month. Interest on individual accounts will be accrued and credited daily based on the interim rate. At the end of each financial year (ending on 30 November), the Insurer will declare an annual interest rate (the "Annual Rate"). The Annual Rate and any interim rate declared are determined at the sole discretion of the Insurer. The Insurer guarantees that the Annual Rate declared, however, will not be less than 0% p.a.

A Member who invests in the Guaranteed Portfolio will only be entitled to the Annual Rate in respect of a financial year if the Member holds the investment in the Guaranteed Portfolio until the end of that financial year. However, should the Member decide to transfer his/her investments in the Guaranteed Portfolio at any time during a financial year to other Constituent Funds in the Scheme or to an account of the Member within another Registered Scheme, such transfer would constitute a cessation of the holding in the Guaranteed Portfolio and the Member will not be entitled to the Annual Rate in respect of the relevant financial year. Please refer to the MPF Scheme Brochure for more information.
