It is not, and does not form part of, a contract of insurance and is designed to provide an overview of the key features of this product. The precise terms and conditions of this plan are specified in the policy contract. Please refer to the policy contract for the definitions of capitalised terms, and the exact and complete terms and conditions of cover. In case you want to read policy contract sample before making an application, you can obtain a copy from AIA. This brochure should be read along with the illustrative document (if any) and other relevant marketing materials, which include additional information and important considerations about this product. We would like to remind you to review the relevant product materials provided to you and seek independent professional advice if necessary.

This plan is an insurance plan without any savings element. All premiums are paid for the insurance and related costs.

This brochure is for distribution in Hong Kong / Macau only.

Key Product Risks

1. You should pay premiums for this plan till insured's age 85. If you do not pay the premium within 31 days of the premium due date, the policy will be terminated and you / the insured will lose the benefit.
2. You may request for the termination of your policy by notifying us in written notice. Also, we will terminate your policy and you / the insured will lose the benefit when one of the following happens:
 - the insured passes away;
 - you do not pay for the premium within 31 days of the due date;
 - no effective add-on plan is attached to this plan on or after the anniversary of your policy immediately following the insured's 85th birthday; or
 - the benefit paid of Major Urban Critical Illness Benefit reaches 100% of the sum assured (only applicable if no effective add-on plan is attached to this plan).
3. Major Urban Critical Illness Benefit and Compassionate Death Benefit will be terminated on the anniversary of your policy immediately following the insured's 85th birthday.
4. We underwrite the plan and you are subject to our credit risk. If we are unable to satisfy the financial obligations of the policy, the insured may lose your premium paid and benefits.
5. You are subject to exchange rate risks for plans denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. You should consider the exchange rate risks and decide whether to take such risks.
6. In some situations, total premiums payable may be greater than the received benefit.
7. Your current planned benefit may not be sufficient to meet your future needs since the future cost of living may become higher than they are today due to inflation. Where the actual rate of inflation is higher than expected, you may receive less in real terms even if we meet all of our contractual obligations.

Effective from 1 January 2018, all policy owners are required to pay a levy on each premium payment made for both new and in-force Hong Kong policies to the Insurance Authority (IA). For levy details, please visit our website at www.aia.com.hk/useful-information-ia-en or IA's website at www.ia.org.hk.

The above list is for reference only. Please refer to the policy contract of this plan for the complete list and details of exclusions.

Premium Adjustment

In order to provide you with continuous protection, we will review the premium of your plan from time to time and adjust it accordingly at the end of every policy year if necessary. During the review, we may consider factors including but not limited to the following:

- claim costs incurred from all policies under this plan and the expected claim outgo in the future which reflects the impact of change in the incidence rate of covered illnesses;
- historical investment returns and the future outlook of the product's backing asset;
