

LIFE INSURANCE – LIFE PROTECTION
WEALTH SERIES – WEALTH ULTIMA 2 (WU2)

BUILDING YOUR LEGACY

AIA International Limited
(Incorporated in Bermuda with limited liability)

HEALTHIER, LONGER,
BETTER LIVES

AIA Group is the only international life insurer headquartered and listed in Hong Kong and 100% focused on Asia-Pacificⁱ

It is one of the largest life insurers in the worldⁱⁱ and the second largest constituent stock of the Hang Seng Indexⁱⁱⁱ

As the world is constantly changing, so do the needs of customers for protection and wealth management. AIA Group is committed to providing customers with the most appropriate protection and financial solutions to meet their needs and aspirations in different life stages.

As a leading pan-Asian life insurer, AIA Group has served generations of families in Asia. The Group strives to offer customers the right protection and wealth management solutions, to build their wealth and better prepare for their lives at all times, and to protect the future of their next generation.

As a market leader, AIA Group focuses exclusively on the Asia-Pacific region with established operations in 18 markets - wholly-owned branches and subsidiaries, joint venture or representative offices. The Group understands the challenges that the people of the region face at different stages of life.

About AIA Group

The founding of the business that is now AIA Group dates back to Shanghai a century ago. With the Group's rapid development in Hong Kong, it has built a solid foundation and further expanded its domain all over Asia. As of 30 June 2021, AIA Group has total assets of US\$330 billion^{iv}.

Financial strength

Credit agency ratings are key indicators of financial strength. AIA International Limited currently holds the following ratings^v:

Credit Rating - AIA International Limited	
Standard & Poor's Latest rating date: 31 December 2020	AA- (Stable)
Moody's Latest rating date: 31 December 2020	Aa2 (Stable)

Sustain generation after generation with your legacy

A legacy reflecting the heights of your success and the depths of your devotion.

Your wealth can be a source of valuable opportunity for generations to come, allowing you to support in their dreams and even live on in their future successes. By making the suitable arrangements for transferring your legacy, you can pave the way for your descendants with greater efficiency, while avoiding extra cost and delay.

AIA understands your need to distribute your considerable wealth according to your wishes. That is why we introduced **Wealth Ultima 2**, a **universal life insurance plan** specifically designed for ultra-high net worth individuals. With a minimum Current Sum Assured of US\$10,000,000, it offers whole-life insurance protection as well as flexible control of your financial legacy. Your policy can be designed to suit your estate planning arrangements, so that the financial protection of your family can carry on for lifetimes to follow.

Pay your premium according to your schedule

Because opportunity can be fleeting, we understand your need for flexibility when it comes to your premium payments. That's why we offer a flexible arrangement whereby you can choose the amount of premium you wish to pay and how often you pay it, enabling you to build your legacy without compromising your other plans for the future.

Enjoy stability with a guaranteed crediting interest rate

Beyond protection and preservation, **Wealth Ultima 2** provides the opportunity to enhance the value of your wealth by guaranteeing a minimum crediting interest rate of 2.00% per annum for the duration of your policy. We help you build a legacy for those most precious to you.

Gain greater control on costs

The cost of insurance (COI), payable monthly, is a charge supporting the insurance protection element of your policy. With **Wealth Ultima 2**, you enjoy a guaranteed rate on your cost of insurance, meaning it will never increase unexpectedly throughout the duration of your policy, allowing you to enjoy greater control of your costs.

Preserving and growing your lasting fortune

Wealth Ultima 2 simplifies and enriches your ample legacy, so you can paint a bright future for your descendants.

I. Flexible premium payments

You can choose to pay your premium either in one lump sum or over a set period annually, or you can pay additional premiums anytime, provided that you satisfy the minimum and maximum premium requirements.

The minimum premium requirement is checked annually for the first five policy years. The total premiums paid, less any withdrawals you make, must be more than the minimum premium amount to ensure there is sufficient value to maintain your policy. The maximum premium requirement is based on underwriting requirements determined by us from time to time.

II. Wealth preservation

Your premiums will accumulate in your policy as Account Value, which is subject to charges that will support the maintenance of your policy. Net of these charges, your Account Value will earn interest throughout the duration of your policy.

Policy maintenance

Each premium payment is subject to a one-time premium charge of 6.5% at the time of payment. Other policy charges will be deducted from your Account Value on a monthly basis. These are the administration charge, which is based on the Current Sum Assured and is payable for the first 15 years of each cover layer, and the cost of insurance (COI), which is based on the Sum at Risk and is payable until the insured, who is the person protected under the policy, reaches the age of 120. The first cover layer of your policy is the sum assured at policy issue, and any subsequent increase in Current Sum Assured will create a new cover layer under your policy. The Sum at Risk, subject to a minimum of zero, is equal to the Current Sum Assured less the Account Value. As long as the Sum at Risk is equal to zero, the COI is waived.

Cash accumulation

The Account Value will be accumulated at a non-guaranteed crediting interest rate declared by us from time to time, but at any time will not be less than 2.00% per annum. In addition, the policy offers an interest rate lock for premiums paid during the first policy year, enabling you to enjoy a guaranteed crediting interest rate until the end of the first policy year based on the crediting interest rate declared by us at the time of premium payment.

III. Life insurance protection

Death Benefit

Upon the death of the insured, the death benefit will allow your legacy to be quickly and reliably transferred. This will be divided among individual beneficiaries, and is calculated as follows:

Death Benefit	
If the insured passes away before the age of 120	The higher of: i. the Current Sum Assured; and ii. the Account Value minus outstanding debt (if any)
If the insured passes away at or after the age of 120	The Surrender Value

Settlement Option

Apart from a lump sum payment, if you wish your beneficiary to take the amount of death benefit in regular instalments, the plan provides a settlement option available to you.

You can select specific amounts of benefit to be paid to your beneficiary at regular intervals chosen by you, provided that the total annual payment is at least equal to 2% of the death benefit. Remaining amount of benefit will be left in our

company to accumulate at the non-guaranteed interest rate determined by us, until the full amount of benefits has been paid to the beneficiary.

The death benefit settlement option is not available if the death benefit payable is less than US\$50,000.

You have the right to request for historical accumulation interest rates before committing the purchase.

Terminal Illness Benefit

In the unfortunate event that the insured is expected to pass away within 12 months due to a terminal illness, as confirmed by both the registered medical practitioner in the appropriate medical specialty and our appointed registered medical practitioner, a one-off advance payment will be paid as Terminal Illness Benefit.

The maximum aggregate amount of the payment made by us under the Terminal Illness Benefit is US\$2 million Sum at Risk for the same insured per life (under all policies held with us and AIA Company Limited covering the same insured). If the Sum at Risk exceeds US\$2 million, this benefit will equal US\$2 million, and the cover will continue with US\$2 million deducted from the Current Sum Assured. Otherwise, if the Sum at Risk is less than or equal to US\$2 million, this benefit will equal the death benefit, and the cover will terminate since the death benefit is fully paid in advance.

IV. Accessible cash

Wealth Ultima 2 offers several ways to address immediate financial needs.

Withdrawal

One option is a withdrawal, which allows you to withdraw part of the Account Value from your policy after the first policy year (or, in relation to additional premiums, one year following the date of payment of the additional premium). The withdrawal amount must be at least US\$1,000.

In general, withdrawals will reduce the Account Value and Current Sum Assured. A surrender charge will also be deducted from the Account Value for any withdrawals made during the first 15 years of each cover layer. However, from the 11th policy year onwards, if the total withdrawal amount made in the relevant policy year is less than 4.5% of your Account Value as of the preceding policy anniversary, no surrender charge will apply and the Current Sum Assured will not be reduced.

Following a withdrawal, the Account Value remaining must be sufficient to cover three months of policy charges, plus any applicable surrender charge and any outstanding debt. If the withdrawal triggers a reduction in Current Sum Assured, the minimum Current Sum Assured must be met. Moreover, if the withdrawal is made within the first five policy years, the minimum premium requirement must be satisfied.

Policy Loan

A second option is to take a loan against your policy, available after the first policy year. The loan amount must be at least US\$1,000, but cannot exceed 80% of your Account Value less any applicable surrender charge and any outstanding debt under your policy. Interest on a policy loan will be charged at a rate solely determined by us from time to time.

V. Adjustable protection

To ensure that your policy continues to meet your needs, you have the option of adjusting your policy cover after the second policy year.

Increasing the sum assured

You can top up your existing protection without purchasing a new policy by increasing the Current Sum Assured of the policy, subject to our prevailing rules and regulations. This additional cover will create a new cover layer that is underwritten separately. Moreover, this new cover layer will be subject to a separate administration charge and surrender charge for the first 15 years of its duration. The COI will also be deducted from the policy monthly based on the increased Sum at Risk until the insured reaches the age of 120.

Decreasing the sum assured

You may also reduce the Current Sum Assured of your policy, subject to the minimum Current Sum Assured; a surrender charge will apply for the first 15 years of each cover layer.

Product Features

Insured's Age at Policy Issue	Age 18 – 75
Currency	US\$
Benefit Term	Whole Life
Minimum Current Sum Assured	US\$10,000,000
Death Benefit	If the insured passes away before the age of 120: Current Sum Assured or the Account Value (whichever is higher) minus outstanding debt (if any) If the insured passes away at or after the age of 120: Surrender Value
Premium Type	Flexible premium, can be single premium or annual premium (subject to the minimum and maximum premium requirement) For details, please refer to “Flexible premium payments” at p.5
Interest Rate Lock	First Policy Year
Guaranteed Crediting Interest Rate	2.00% per annum for the duration of the policy
Free-of-Charge Withdrawal Limit after the 10th Policy Year	After the 10th Policy Year, free-of-charge withdrawal limit is 4.5% per annum of the Account Value as of the preceding policy anniversary
Terminal Illness Benefits	Advance payment of the death benefit upon diagnosis of terminal illness, with a limit of US\$2,000,000 Sum at Risk for the same insured
Premium Charge	6.5% of each premium payment
Administration Charge	Based on the Current Sum Assured and deducted monthly for the first 15 years of each cover layer; charge varies according to the insured's age at issue, gender, usual residence and health status
Cost of Insurance	Based on the Sum at Risk and deducted monthly until the insured reaches the age of 120; charge varies according to the insured's attained age, sum assured, gender, usual residence, health status and smoking status
Surrender Charge	Based on the Current Sum Assured and applicable in the first 15 years of each cover layer upon: <ul style="list-style-type: none"> I. Policy lapse and surrender II. Decrease in Current Sum Assured III. Withdrawals Charge varies according to the insured's age at issue, gender, usual residence, health status and the number of years that the cover layer has been in force
Surrender Value	Account Value minus any applicable surrender charge and outstanding debt (if any)

Important Information

This brochure does not contain the full terms and conditions of the policy. It is not, and does not form part of, a contract of insurance and is designed to provide an overview of the key features of this product. The precise terms and conditions of this plan are specified in the policy contract. Please refer to the policy contract for the definitions of capitalised terms, and the exact and complete terms and conditions of cover. In case you want to read policy contract sample before making an application, you can obtain a copy from AIA. This brochure should be read along with the illustrative document (if any) and other relevant marketing materials, which include additional information and important considerations about this product. We would like to remind you to review the relevant product materials provided to you and seek independent professional advice if necessary.

This brochure is for distribution in Hong Kong / Macau only.

Crediting Interest Rate, Fees and Charges Philosophy

This is a universal life insurance plan designed to be held long term. Your premiums, after applicable charges of the product, will be deposited to a cash accumulation account. The account value will be invested in a variety of assets according to our investment strategy and will accrue interest at a declared interest rate determined by us. The account value of your policy is subject to the applicable fees and charges of the product. We aim to ensure a fair interest determined from the underlying investment and among different groups of policy owners.

Future investment performance is unpredictable. Through our smoothing process, we aim to deliver more stable crediting interest rate by spreading out the gains and losses over a longer period of time. Stable interest will ease your financial planning.

We will review and determine the crediting interest rate to be declared to policy owners at least annually, or more frequently, and we reserve the right to declare such crediting interest rate from time to time. The actual crediting interest rate declared may be different from the crediting interest rates illustrated in any product information provided (e.g. benefit illustrations). If there are any changes in the actual crediting interest rate against the illustration or in the assumed future crediting interest rate, such changes will be reflected in the policy anniversary statement.

A committee has been set up to provide independent advice on the determination of crediting interest rates and other non-guaranteed benefits and policy charges to the Board of the Company. The committee is comprised of members from different control functions or departments within the organisation both at AIA Group level as well as Hong Kong local level, such as office of the Chief Executive, legal, compliance, finance and risk management. Each member of the committee will exercise due care, diligence and skill in the performance of his or her duties as a member. The committee will utilise the knowledge, experience, and perspectives of each individual member to assist the Board in the discharge of its duty to make independent decision and to manage the risk of conflict of interests, in order to ensure a fair interest determined from the underlying investment and among different groups of policy owners. The actual crediting interest rate, other non-guaranteed benefits and policy charges, which are recommended by the Appointed Actuary, will be decided upon the deliberation of the committee and finally approved by the Board of Directors of the Company, including one or more Independent Non-Executive Directors, and with written declaration by the Chairman of the Board, an Independent Non-Executive Director and the Appointed Actuary on the management of fair treatment between policy owners and shareholders.

To determine the crediting interest rate of the policy, we consider both past experiences and the future outlook for all the factors including, but not limited to, the following:

Investment returns: include interest earnings, dividends and any changes in the market value of the product's backing assets. Depending on the asset allocation adopted for the product, investment returns could be affected by fluctuations in interest income (both interest earnings and the outlook for interest rates) and various market risks, including credit spread and default risk, fluctuations in equity prices, property prices and foreign exchange currency fluctuation of the backing asset against the policy currency.

Surrenders: include policy surrenders, partial surrenders and policy lapses; and the corresponding impact on the investments backing the product(s).

This product also has policy charges and fees which will be reviewed at least once per year and may be adjusted from time to time if necessary with not less than one month's prior written notice period or such shorter period of notice in compliance with the relevant regulatory requirements. In addition to the conditions stated in the schedule of policy charges, and the above-mentioned investment returns and surrenders factors, the review of policy charges and fees may also be subject to the following factors:

Claims: include the cost of providing the death benefits and other insured benefits under the product(s).

Expenses: include both expenses directly related to the policy (e.g. commission, underwriting, issue and premium collection expenses) and indirect expenses allocated to the product group (e.g. general administrative costs).

For further information, please visit our website at <http://www.aia.com.hk/en/crediting-interest-rate-philosophy.html>

For the historical crediting interest rate, please visit our website at <http://www.aia.com.hk/en/crediting-interest-rate.html>

Crediting Interest Rate Philosophy	Historical Crediting Interest Rate
	

Investment Philosophy, Policy and Strategy

Our investment philosophy is to deliver stable returns in line with the product's investment objectives and AIA's business and financial objectives.

Our investment policy aims to achieve the targeted long-term investment results and minimise volatility in investment returns over time. It also aims to control and diversify risk exposures, maintain adequate liquidity and manage the assets with respect to the liabilities.

Our current long-term target strategy is to allocate assets attributed to this product as follows:

Asset Class	Target Asset Mix (%)
Bonds and other fixed income instruments	80% - 100%
Growth assets	0% - 20%

The bonds and other fixed income instruments predominantly include government and corporate bonds, and are mainly invested in the geographic region of the United States and Asia-Pacific. Growth assets may include private credit funds, listed equity, equity mutual funds, physical real estate, real estate funds and private equity funds, which are mainly invested in the United States, Asia-Pacific and Europe. Returns of growth assets are generally more volatile than bonds and other fixed income instruments. Subject to our investment policy, derivatives may be utilised to manage our investment risk exposure and for matching between assets and liabilities.

Our currency strategy is to minimise currency mismatches. For bonds or other fixed income instruments, our current practice is to currency-match their bond purchases with the underlying policy denomination on best-efforts basis (i.e.: US Dollar assets will be used to support US Dollar liabilities). Subject to market availability and opportunity, bonds may be invested in currency other than the underlying policy denomination and currency swap will be used to minimise the currency risks. Currently assets are mainly invested in US Dollar. Growth assets may be invested in currency other than the underlying policy denomination, and the currency exposure depends on the geographic location of the underlying investment where the selection is done according to our investment philosophy, investment policy and mandate.

We will pool the investment returns from other long term insurance products (excluding investment linked assurance schemes and pension schemes) together with this universal life insurance plan for determining the actual investment and the return will subsequently be allocated with reference to the target asset mix of the respective universal life products. Actual investments (e.g. geographical mix, currency mix) would depend on market opportunities at the time of purchase. Hence it may differ from the target asset mix.

The investment strategy may be subject to change depending on the market conditions and economic outlook. Should there be any material changes in the investment strategy, we will inform policy owners of the changes, with underlying reasons and impact to the policies.

Key Product Risks

1. The plan may make certain portion of its investment in growth assets. Returns of growth assets are generally more volatile than bonds and other fixed income instruments, you should note the target asset mix of the product as disclosed in this product brochure, which will affect the crediting interest rate on the product. The savings component of the plan is subject to risks and possible loss. Should you surrender the policy early, you may receive an amount considerably less than the total amount of premiums paid.
2. You may request for the termination of your policy by notifying us in written notice. Also, we will terminate your policy and you / the insured will lose the cover when one of the following happens:
 - the insured passes away; or
 - the Terminal Illness Benefit is paid (where the maximum aggregate amount of Sum at Risk is less than or equal to US\$2 million) and the death benefit under this policy is fully paid in advance; or
 - you do not pay the required premium amount within 60 days starting from the monthly deduction day on which the total projected policy charges for 3 months exceeds
 - the Account Value less any outstanding debt during the first 5 policy years; and
 - the Account Value less any applicable surrender charge and any outstanding debt after the 5th policy year; or
 - you do not pay the required premium amount to meet the minimum premium requirement within 31 days from the relevant policy anniversary in the first 5 policy years.
3. We underwrite the plan and you are subject to our credit risk. If we are unable to satisfy the financial obligations of the policy, you may lose your premium paid and benefits.
4. You are subject to exchange rate risks for plans denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. You should consider the exchange rate risks and decide whether to take such risks.
5. Your current planned benefit may not be sufficient to meet your future needs since the future cost of living may become higher than they are today due to inflation. Where the actual rate of inflation is higher than expected, you may receive less in real terms even if we meet all of our contractual obligations.

Key Exclusions to the Terminal Illness Benefit

No Terminal Illness Benefit will be paid if:

1. the signs or symptoms of the medical condition of the insured first occur or commence on or before 90 days from the issue date of the policy; or
2. the 12-month period within which the insured is expected to pass away due to the terminal illness falls on or after the Policy Anniversary immediately following the insured's 120th birthday; or
3. the terminal illness is a pre-existing illness, disease, impairment or condition from which the insured was suffering prior to the policy being issued or being reinstated (if applicable), whichever is better, unless the insured makes a declaration in the application for the policy or in the application for reinstatement of the policy (if applicable), and such application is specifically accepted by us; or
4. the terminal illness is the result of or is related (directly or indirectly) to Acquired Immunodeficiency Syndrome (AIDS) or Human Immunodeficiency Virus (HIV) according to AIA's opinion; or
5. the terminal illness is due (directly or indirectly) to a congenital defect or disease which manifests or is diagnosed before the insured attains the age of 17; or
6. the terminal illness is the result of self-inflicted injury or injuries; or
7. the terminal illness is the result of any physical or mental condition existing before the policy was issued, and which was not disclosed in any application or in any health statement relating to the policy before the commencement of cover.

Effective from 1 January 2018, all policy owners are required to pay a levy on each premium payment made for both new and in-force Hong Kong policies to the Insurance Authority (IA). For levy details, please visit our website at www.aia.com.hk/useful-information-ia-en or IA's website at www.ia.org.hk.

Suicide

If the insured commits suicide within one year from the date on which the policy takes effect, our liability will be limited to the refund of premiums paid (without interest) less any outstanding debt and withdrawals.

Incontestability

Except for fraud, we will not contest the validity of the policy after it has been in force during the lifetime of the insured for a continuous period of two years from the date on which the policy takes effect. For any increase in the Current Sum Assured, such 2-year incontestability period will separately apply to the sum assured of each cover layer created starting from the date on which the new cover layer takes effect. This provision does not apply to any add-on plan.

Cancellation Right

You have the right to cancel and obtain a refund of any premiums and any levy paid by giving written notice to us. Such notice must be signed by you and submitted to the Customer Service Centre of AIA International Limited at 12/F, AIA Tower, 183 Electric Road, North Point, Hong Kong or Customer Service Centre of AIA International Limited at 201, 2F, AIA Tower, 251A-301 Avenida Comercial de Macau, Macau within 21 calendar days immediately following either the day of delivery of the policy or the Cooling-off Notice to you or your nominated representative, whichever is the earlier.

Always dedicated to excellence

It is widely acknowledged that protection has always been secondary to investment in people's financial planning

Now however, against the backdrop of an ageing population and the steadily increasing cost of healthcare, high net worth individuals are all the more aware of the need to review their life insurance cover together with plans to preserve their wealth. AIA is committed to providing the right solutions to customers to prepare them for the future.

AIA Hong Kong and AIA Macau are leaders in their life insurance markets. We provide a full suite of products, supported by one-stop premier services to help our customers achieve their wealth and protection goals.

We are committed to excellence and aspire to set the standard for the industry in all areas of our business. The effort and dedication of everyone in AIA has earned us numerous esteemed industry awards, encompassing brand image, product & services, professional training and social responsibility. This proves that our quality of service, product innovation, leadership and excellent business reputation are widely recognised in the community.

Tailored solutions to respond to customers' lifelong protection needs

As life changes, our customers' needs evolve with the growth of society. AIA keeps up with the market by understanding and proactively anticipating the needs of different customer segments for different stages of life. We take a forward-looking approach to product development, providing innovative and tailored solutions to fulfil the needs of high net worth individuals.

Committed to customers in Hong Kong and Macau

Deeply rooted in Asia, AIA has always strived to develop and provide products and services that are responsive to the needs of high net worth clients. We have set up the AIA Wealth Select Centre to provide one-stop solutions for both insurance and wealth management.

Recognising that service excellence is an endless journey, we continue to strive for perfection.
